1349-1451 W. 35th ST. • CHICAGO 9, ILLINOIS

PRICES SLASHED!

IMPORTANT - PLEASE READ!

The prices shown in this catalog are, we believe, BELOW ALL COMPETITION. As you study this catalog, please look for items marked "VOLUME VALUES" or "DISCOUNTS". You will find these NEW DISCOUNTS will bring you EVEN GREATER SAVINGS.

ORDERING INSTRUCTIONS-TERMS

Unless otherwise stated all prices are NET and f.o.b. Chicago. For FASTEST SERVICE send cash in full with order. On sizable orders, where shipment is to be made from our Chicago stock, you may remit 25% of total amount and send the balance when your order is ready for shipment, at which time you will be notified. WHERE SHIPMENT OF YOUR ORDER IS TO BE MADE DIRECT FROM OTHER FACTORIES CASH IN FULL WITH YOUR ORDER IS REQUIRED.

If you are accustomed to buying on CHARGE ACCOUNT, we feel sure that we can extend a similar courtesy to you. Please send name of your Bank and three Trade References, being sure to allow us a few extra days for credit investigation.

If you wish to do your own hauling-1st.-Mark your order as follows: "Will pick-up-Notify when Ready." 2nd-Send your order accompanied by cash in full.

We will then assemble and prepare your order, and notify you when to come. Pick-up Orders filled only before 3 pm daily (Saturday before 11 am.)

Most of the items in this Bulletin are shipped very promptly from our big complete Chicago stocks. Occasionally delays in shipping may be encountered because of the difficulties in securing vital materials.

We reserve the right to ship materials direct from factories or mills to save handling and freight charges.

FASTEST SERVICE

We ship by most economical route - Motor Freight, Railway Freight, Express or Parcel Post.

Ample stocks are always on hand to fill your orders, immediately, and "Specials" are completed in record time in our modern, well equipped factories, -- and Shipping Service is today FASTER THAN EVER. Do you realize that a shipment can leave our Plant one morning and by the NEXT MORNING be as far East as BALTIMORE, as far West as OMAHA, as far North as ST. PAUL or as far South as MEMPHIS.

AN OPEN INVITATION TO VISIT US

Come and see for yourself the Largest Millwork operation in the middle west - our vast undercover Lumber Yards and mammoth stocks of Building Materials. Please come before 3pm daily or on Saturday before 11 am.

YOUR GUARANTEE OF SATISFACTION

WE GUARANTEE to refund the full purchase price and assume the expense of transportation, both ways, on any material or article purchased from us which does not measure up to established grade specification or our representation. Authority to return any article for any reason must be secured from us BEFORE making any return shipment, at, which time proper directions will be supplied to safeguard and speed adjustment.

FINE FLUSH DOORS at AMERICA'S LOWEST PRICES!

These are truly fine Flush Doors at the LOWEST PRICES IN OUR HISTORY.

The Philippine Mahogany Doors are of the VERY BEST QUALITY and are the best door value on the market today.

The "Leader" Birch Doors are unselected for color or grain, but have no open defects.

The "Econline" Birch Doors are SELECTED at the factory for generally pleasing appearance and are our most popular Birch Door.

The "Supreme" Birch Doors are DOUBLE SELECTED, once at the factory and again by our inspectors. These are the doors you should order for truly fine jobs.

Oak Doors are "A" grade and are becoming more popular constantly.

For less than 6 Doors (SIZES and WOODS CAN BE MIXED TO MAKE 6) we must add 10% to prices below. Orders for 50 Doors DEDUCT 5%. 100 Doors DEDUCT 10%.

SPECIFICATIONS OF "HARRIS" DOORS

- Doors can be trimmed one inch at EACH END. Struts are SCIENTIFICALLY SPACED - closer together than in other doors.
- The most vital factor in a hollow core door is the GLUING. "HARRIS" doors embody the FINEST AVAILABLE GLUE - applied with modern MECHANICAL glue spreaders. Doors are then placed in a HUGE AUTOMATIC PRESS.
- "HARRIS" doors are built in a MODERN, COMPLETELY EQUIPPED PLANT, by EXPERIENCED DOOR MANUFACTURERS. These doors carry the STANDARD GUARANTEE of the NATIONAL WOODWORK MANUFACTURERS ASSOCIATION backed by a MEMBER OF THAT ASSOCIATION.
- Lock block on EACH SIDE ensures DOOR BALANCE as well as permitting HARDWARE INSTALLATION ON EITHER SIDE and REVERSING OF DOORS for matching effects.
- SEVEN PLY CONSTRUCTION is standard on all "HARRIS" hollow core doors. - a factor of the UTMOST IMPORTANCE. Face and back veneers are always of the SAME SPECIES with cross bandings CAREFULLY SELECTED for STRAIGHT GRAIN. MOISTURE content is CAREFULLY CONTROLLED.

For less than 6 Doors (SIZES and WOODS CAN BE MIXED TO MAKE 6) we must add 10% to prices at left. Orders for 50 Doors deduct 5%. 100 Doors deduct 10%.

The Trend is to LOUVER DOORS

Leading Architects are specifying Louver Doors in more and more fine residences. Suitable for any type of Architecture they are as "at home" in the most formal setting as they are in a Ranch House.

Louver Doors lend drama to even the smallest hall and are especially attractive when used in pairs between Dining and Living Rooms. Used as folding doors they can be hinged together to fill almost any size Doorway. As single doors they are in great demand for Bedrooms and for Closets which require ventilation.

Harris Louver Doors are manufactured entirely of clear W. P. Pine.

NO.10S-2018 - LOUVER DOORS - 1-3/8" THICK

VOLUME VALUE! On orders for 25 Louver Doors, deduct 5%. On 50 deduct 10%. On 100 deduct 15%. (Sizes can be mixed to make quantity.)

HARRIS "ROLLBY" DOOR UNITS FOR ...

PATENT
PENDING

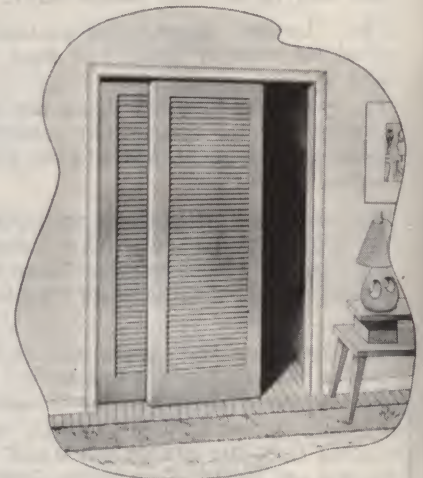

"Rollby" Door Units place every inch of closet space within easy reach.

"Ceiling-to-Floor" Installations are attractive and very economical, since they eliminate much expensive construction.

Featuring:

- NO FLOOR TRACK
 - NO HEAD TRACK
- and now -
- FLUSH DOORS
- FOR 8 FOOT
CEILINGS

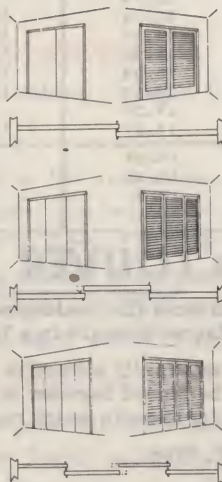

Outstanding Beauty Because the Birch or Philippine Mahogany Flush Doors can be given a natural, stain or paint finish to match the other doors in the house. The Louver Doors with their individually mortised slats have a charm of their own which blends with any style of Architecture. They are particularly suited to closets which require ventilation. The Novoply Doors create a "Flush-Floor-to-Ceiling" effect and can be finished natural, stained, painted or wallpapered. No unsightly head valances or floor tracks are needed and the doors can Line Up perfectly with swinging doors in the same room.

Fast Easy Installation...Because there is no complicated overhead track to install. (The Head Jamb is the Track). No Dirt-Catching Floor Track is needed. (The Lower Doors Roll with "Finger-Tip" Control on the Super-Silent Rubber Tired Wheels - The Upper Doors slide easily.) No "Split Jamb" is required overhead and the doors require no grooving for Floor Guides. The entire unit can be installed in a matter of minutes - Easy-To-Follow instructions are included.

Lowest Cost...Through the elimination of large areas of studding, lath and plaster together with the hardware and labor needed to hang swinging doors.

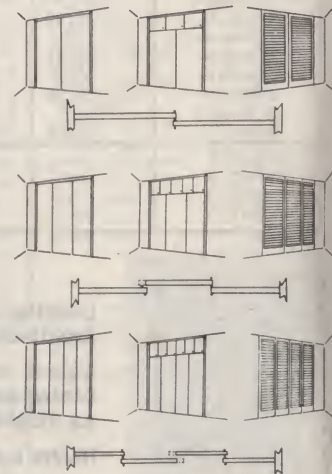

6' 8" "ROLLBY" DOOR UNITS CONSIST OF:

1. Two, three or four Doors - 6' 8" high (Choice of 1-3/8" Hollow Core Flush Philippine Mahogany or Birch - 1-3/8" W.P. Pine Louver type or 3/4" Novoply.)
2. Combination Head Jamb and Head Track - W. P. Pine - fully machined - 3/4" x 5-3/8". (Can be ripped down easily on the Job for use with Dry Wall)
3. Rotary Head Guides - Factory-Installed in Tops of Doors.
4. Rubber Tired Ball Bearing Wheels Factory - Mortised and installed in bottoms of Doors.
5. Rotary Floor Guides and Screws.

8' 0" CEILING "ROLLBY" DOOR UNITS CONSIST OF:

1. Two, Three or Four Lower Doors - (Choice of 3/4" Flush Novoply or 1-3/8" W. P. Pine Louver Doors - 7' 11-1/2" high, or 1-3/8" Hollow Core Flush Philippine Mahogany or Birch Doors - 6' 8" High.)
2. Two to Six Upper Doors - 1/4" Thick Philippine Mahogany or Birch, with Fingerholes; Used with 6' 8" Flush Lower Doors to make 8' Ceiling Height. (Flush Novoply and Louver Doors are 7' 11-1/2" high hence they require no upper doors.)
3. TWO Combination Head Jamb and Head Tracks, W. P. Pine, fully machined, 3/4" x 5-3/8" for use with Philippine Mahogany or Birch Flush Doors. (Only ONE is needed with Novoply or Louver Doors) Jamb can be ripped down easily on the job for use with Dry Wall.
4. Rotary Head Guides - Factory-Installed in Tops of Doors.
5. Rubber Tired Ball Bearing wheels - Factory-Mortised and Installed in bottoms of doors.
6. Rotary Floor Guides and Screws.

NOVOPLY

The Truly Different Wood Panel For Those Who Demand Distinction And Beauty At Low Cost.

- ★ A completely new and different wood panel produced from wood chips and wood veneer flakes.
- ★ Strong 3-ply construction.
- ★ Gleaming wood-mosaic surface makes it increasingly popular with builders and architects.

- ★ Paint it, stain it, or leave its natural, beautiful finish.
- ★ The flattest panel ever made—*virtually warp-free*.
- ★ Novoply Panels are 3/4" thick.

SPACEMASTER folding doors

economy vinyl-fabric doors by

THE ANSWER TO THE "SPACE PROBLEM" IN EVERY HOME

MORE WORK SPACE IN KITCHENS: Even the smallest kitchen becomes more workable with "Spacemaster" doors to free up space wasted in swinging doors.

BIGGER BEDROOMS IN MINUTES: Anyone can have a bigger bedroom without costly remodeling - when "Spacemaster" doors cover closet openings. More room to place furniture as desired.

DEAD CORNERS COME TO LIFE: "Spacemaster" folding doors make living rooms larger, more able to accommodate additional chairs, table, corner cabinets.

"STANDARD" DOORS
AVAILABLE AS
SINGLES OR PAIRS

NOTE HOW THE "ROLLING
POST" PERMITS OPENING
TO EITHER SIDE.

LOOK AT THESE "SPACEMASTER" FEATURES!

- Vinyl Coated Fabric Covering, durable, fade-proof, easy to wash.
- Balanced Hinge Construction both top and bottom for long life, easy opening and closing.
- More Folds Per Opening for better appearance.
- Smaller Stack Space when door is closed ... for bigger "pass through" area.
- Shallow Metal Track, covered when door is closed. Almost invisible when door is opened.
- Vertical Steel Rods, two to each hinge, welded not crimped for greater strength.
- The Vinyl Covering is "Decorator Grey" --- which harmonizes with any color scheme.

- Quiet, "Sure-Stop" Slides carry door along track. Door can't "creep" away from fully open or closed positions.
- Fabric Covering Easily Removed, snap fasteners attach fabric to frame. No gluing, no sewing.
- Compression Springs at bottom of door equalize fabric tension - reduce chance of fabric "wrinkling."
- "Spacemaster" doors are easy to install. You can do it yourself in 15 minutes or less. All you need is a screwdriver.
- Shipped complete with attractive Pull for each side of "STANDARD" Door, all necessary Hardware, Screws, Clips and Installation Instructions.

| 8'0" x 6'8" | 67.98 |
| 8'0" x 8'0" | 91.26 |

NOTE: "WARDROBE" Doors are for use as closet fronts and permit pieced or lighter weight fabric on the back side. They come in SINGLES ONLY and MUST fasten to the LEFT jamb. "STANDARD" Doors are REVERSIBLE and CAN be used in pairs.

IMPORTANT NOTES. For Smaller than Listed or Intermediate Widths order next wider door and cut down track with hack saw. Doors cannot be cut down in height. 4'0" Single "STANDARD" Doors (and 8'0" Pairs) have convertible "Fixed" and "Rolling Posts" which permit Doors to be opened to either side or fastened to the Jamb.

\$14.79

Specify Whether
4-5/8"
or
5-3/8"
Wall

Be Sure to Specify Whether for 4-5/8" or 5-3/8" Walls.

Any 1-3/8" Door can be used with the "Space-Saver" Unit. Rough opening allowed should be approximately 2" wider than twice the door width and 4-1/4" higher than Door Height. "Space-Saver" Units are made for 4-5/8" and 5-3/8" Walls. BE SURE TO SPECIFY WHICH IS WANTED.

"SPACE-SAVER" UNITS WILL . . .

SAVE SPACE Actual measurements of a typical floor plan prove that 18.7% more usable floor space is made available through the use of rolling doors. There's more wall space, too, and better decorative effects can be achieved, with no allowances necessary for space-filling swinging doors.

SAVE MONEY The reduced cubic footage made possible by rolling doors permits an appreciable saving in construction and finishing costs.

SAVE TIME Less construction time is necessary when less cubic footage is required through use of rolling doors. Finishing time is likewise lessened. And the Factory-Fabricated Frame Pocket, together with quality Hardware speeds installation in every case.

GAIN COMPLETE VISIBILITY Use of rolling doors eliminates dark inaccessible closet corners, permits complete visibility as well as saving space.

TRIM FOR "SPACE-SAVER" UNITS

ECONOMY COLONIAL ENTRANCE

*Specially Designed for Today's
"LOW-COST" Homes*

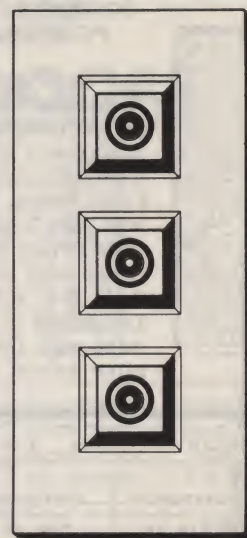

Here is a charming Colonial Entrance which embodies all the Beauty of Design, the Quality Material and the Expert Workmanship of our standard Line of Entrances. The sensationally Low Price is achieved only because this less massive entrance is produced in volume.

Made of Clear W.P.Pine for 3'0"x6'8" 1-3/4" Doors only. If Jambs and Sill for 5/4" frame construction, - 10/4" Jambs for 9" Brick or Standard Brick Veneer Wall or door are wanted, add extra per prices below.

\$11.98

For All The Exterior Trim

Introducing the . . .
"DISTINCTION DOOR"

The balanced massive appearance, the heavy raised panels and the gracefully turned Rosettes combine to make this newest addition to our line truly a "Distinction Door".

All Awnings and Canopes are made to Special Order and Require 3 Weeks for Shipment

"VAN-PACKER" Masonry Chimney

The "VAN-PACKER" packaged chimney is a refractory, tile-lined flue with a lightweight vermiculite concrete insulating wall. Floor or Ceiling suspended or pier type chimney base rectangular roof housing and cap. Flue sections are one or two feet long...inside diameter 7-in...outside diameter 14 1/4-in. Fire-proof and listed by Underwriters' for use with any fuel. F.H.A. accepted. Meets all National Building Codes. "VAN-PACKER" brick panel chimney housing is 16 1/2-in. wide, 24-in deep and available in 2-ft., 4-ft., and 5-ft. heights. Embossed brick pattern in natural brick red color.

Send us the H and L measurements as indicated in diagrams. If the installation you require is not shown, send roof pitch and chimney location.

QUICKLY and EASILY INSTALLED!

Contractors and builders like "VAN-PACKER" Chimneys because they come to the job when needed-- can be installed at any time during construction. Everything comes to you packaged complete. Actual finished cost is 1/3 to 1/2 less than brick. When the installation is completed you have an absolutely fire safe job unaffected by temperatures or acids produced by burning fuel.

| | | | ~34.98 |

VOLUME VALUE!

For Less Than 6 Aluminum Combination Doors (Sizes CAN BE MIXED TO MAKE 6) we must ADD \$1.50 per Door for Handling. On orders for 50 Doors (Sizes CAN BE MIXED) DEDUCT \$2.00 each from Prices Shown.

ALUMINUM PUSH GRILLES

Harris Grilles are constructed ENTIRELY OF ALUMINUM and have a beautiful SATIN-ETCHED FINISH. These are, as far as we know, the ONLY GRILLES which can be APPLIED ON THE INSIDE of the Doors, WHERE THEY BELONG. Where the Grille is applied on the inside its BEAUTY CAN

STILL BE SEEN from the outside, but in addition it ALSO PROTECTS THE DOOR FROM PUSHING. Special screws are INCLUDED. Although grilles are not made for 2'6" Doors the 2'8" size can be cut down and redrilled on the job for use with our 2'6" Doors.

Volume Value! For 12 grilles of one size - deduct 10%

Half Height Galvanized Window Screens

W. P. Pine Frames Mortised, Tenoned and Pinned

Harris Half Height sliding screens are produced in our own factory by trained Craftsmen working with Modern High-speed Machines. Every operation is under constant supervision and the completed screens are carefully checked before shipment is made.

These screens are made of W. P. Pine. Joints are Mortised, Tenoned and Pinned. Side stiles are factory-grooved so that screens slide up and down easily on tongue strips which are furnished with each screen. One Lift (or Handle) is furnished on screens 2' 8" wide and under. Two Lifts are furnished on wider screens. Screening is genuine Galvanized (16 Mesh or 18 x 14 our option).

Half height screens can be trimmed 1/8" in width (1/16" on each side). If you wish to plane down each slide strip 1/16 of an inch on each side, you can then trim the screen an additional 1/8" in width.

Our stock half screens can be trimmed 1/2" in height (1/4" from the top rail and 1/4" from the bottom rail).

VOLUME VALUE! On orders for 25 Half Height Screens DEDUCT 5%. On 50 DEDUCT 10%. On 100 DEDUCT 15%. (Sizes can be mixed to make quantity.)

New! UNDERSCREEN OPERATORS with "Narrotite" VISION WALLS!

● W. P. PINE ● COMPLETE FRAMES ● GLASS INCLUDED (UNION LABEL)

EXCLUSIVE FEATURES OF "VISION WALLS"

Please do not confuse Narrotite "Vision Walls" with other Units which may APPEAR similar at first glance. We ask that you study the exclusive "Vision Wall" features shown below.

W. P. PINE THROUGH: EASY TO WORK and EASY TO NAIL - NO FIR TO SPLIT OR CHECK.

COMPLETE FRAMES: With DRIP CAP, OUTSIDE CASINGS, WIDE SILL, 5-1/4" JAMBS and STOOD all machined for easy assembly and installation - NOT just some pieces of Rabbeted 2x6 Lumber.

GLASS INCLUDED: Your choice of SINGLE or DOUBLE INSULATING GLAZING IS INCLUDED in the prices quoted - NOT necessary to buy glass locally at high prices.

"VISION WALLS" are an ENGINEERED "PRODUCT OF DISTINCTION".

Narrotite "VISION WALLS" bring...

NEW BEAUTY... because nothing lends so much charm to a Home as large expanses of Glass. "Vision Walls" with their trim Mullions are suitable for use with any style of Architecture. They are unique in their ability to make small rooms look larger.

NEW ECONOMY... because "fixed glass areas" are the least expensive known Window Treatment - (yet quality is maintained at a Premium). Then too, there is a tremendous saving in WALL MATERIAL (Studs, Siding, Sheathing, Lath, Plaster, Brick, etc.) as well as the great LABOR SAVING.

NEW SALEABILITY... because "Vision Walls" mean "more house for less money". Then, too, the "One High" Style Units lend themselves admirably to placement high in the wall of a room thus permitting UNBROKEN WALL SPACE for furniture and giving UNUSUAL PRIVACY. All in all "Vision Walls" are a SALES FEATURE THAT HOME OWNERS WANT.

Shown above is the "2 Wide-1 High" Unit, Set High in the Bedroom Wall and the "3 Wide-3 High" Unit, as the Living Room "Vision Wall".

"VISION WALL" SPECIFICATIONS

FRAMES: W.P.PINE - exposed faces CLEAR. ROT-PROOFED - WATER-PROOFED - TERMITE-PROOFED. Drip Cap 1-1/8"x1-5/8", Outside Casing 1-1/8"x1-1/2", Jambs and Mullions 1-3/8"x5-1/4", Sill 1-3/8"x5-1/4", Stool 3/4"x3-3/4". Glass stops MITERED. Completely machined, K.D. For Standard FRAME, BRICK VENEER or MASONRY Walls. Can be cut down on job as much as 1/2" for use with Dry Wall AS THIN AS 1/4".

GLASS: Choice of SINGLE GLAZING - (Clear Window Glass) or 1/2" DOUBLE INSULATING GLAZING (TWO thicknesses of HERMETICALLY SEALED glass with DEAD AIR SPACE BETWEEN - ("THERMOPANE", "CRESTOPANE", etc., our option). Glass for "fixed openings" is 45-1/2"x25-1/2". Glass for ventilator units is 42-1/2"x22-1/2". Glass PACKED for shipment. MITERED wood STOPS and SPECIAL glazing COMPOUND furnished for ALL glass.

VENTILATOR UNIT: Consists of CLEAR W.P.PINE - SASH-ROT-PROOFED-WATER-PROOFED - TERMITE-PROOFED, Fully ASSEMBLED and PRE-FITTED.

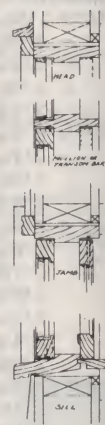

MITERED GLASS STOPS: WEATHERSTRIP APPLIED; NEW HARDWARE which makes it unnecessary to remove screen in order to operate Sash; WOOD FRAME SCREEN with Fine Mesh Screen Cloth and HARDWARE APPLIED; SINGLE or DOUBLE GLAZING Packed Separately.

(Ventilator Unit is 45-1/2" x 25-1/2" overall. Can be job installed in ANY OPENING of the "VISION WALL" instead of "fixed" glass. Where Ventilator Units are ordered we ship correspondingly fewer pieces of "fixed" glass.)

TRIM: Head Casing, Side Casings and Apron in Clear Red Cedar and W.P.Pine "Curvline" or W.P.Pine "Suburban" Style. (W.P.Pine STOOL is FURNISHED as part of FRAME.) See Trim Pages for Illustrations.

STORM SASH: Clear W.P.PINE - FACTORY GLAZED with one light of CLEAR GLASS. HARDWARE FACTORY - APPLIED. 45 1/2 x 25 1/2" OVERALL. (Storm Sash are not needed where DOUBLE INSULATING GLAZING is ordered.)

SPECIFICATIONS

Narrotite "SLIDEBY" Window Units are manufactured of clear W. P. Pine - ROT-PROOFED - WATER-PROOFED - TERMITE-PROOFED. BOTH sash slide with "fingertip control" for they operate in shining tracks of metal weatherstrip (There is no "wood to wood" contact). When the window is closed it is weatherstripped ON ALL SIDES as well as AT THE MEETING RAILS. The Narrotite "SLIDEBY" Window Units can be used in conjunction with our regular Narrotite Window or Door Frame Units since the frames of all are IDENTICAL IN APPEARANCE. Frames have 5/4" Jamb and can be used with Standard FRAME, BRICK VENEER, or MASONRY Walls. They can be ripped down easily on the Job for Dry Wall Construction. (Dry Wall Frames can also be furnished by us as "Specials") Storm Sash and Fine Mesh Screens are available for "SLIDEBY" Units.

FOR SIZES NOT LISTED PLEASE WRITE FOR PRICES

During "Framing IN" always hold Sheathing back 2 1/2" at the head and 2 1/2" at each side to allow for Blind Stops.

DISCOUNT! On orders for 6 or more Slideby Units (SIZES CAN BE MIXED TO MAKE 6) DEDUCT \$2.00 per Unit. Discount applies to UNITS ONLY.

"SLIDEBY" WINDOW UNITS consists of: Glazed-Treated Sash, Treated K.D. Frame, All Weatherstrip

"NARROTITE" Window Unit...

NARROW OUTSIDE CASING PLUS TIGHT WEATHERSTRIPPING MEAN HARRIS "NARROTITE UNITS"

IMPORTANT INFORMATION

"NARROTITE WINDOW FRAMES" have 5½" Jamb and can be used with Standard FRAME, BRICK VENEER or MASONRY Walls. Frames can be ripped down easily on the job for Dry Wall Construction. (Dry Wall Frames can also be furnished by us as "Specials") Rough opening size should be 2½" wider and 6½" higher than Single "Window Opening Size." (During "Framing In" always hold Sheathing back 1" at the head and 2½" at each side to allow for Blind Stops.) Mullion Casings are 1-5/8" wide.

NARROTITE WINDOW UNITS CONSIST OF:

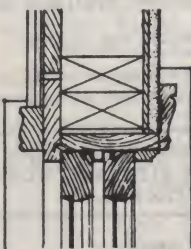

- Choice of Glazed Treated W.P. PINE WINDOWS below (Factory Prefit and Grooved for Weatherstrip):
- W. P. Pine Narrotite Treated FRAME K.D. (completely machined):
- Full Jamb Interlocking Type Metal WEATHERSTRIP.
- Highest Quality Overhead SASH BALANCES.

SILL

PRE-FITTED WEATHERSTRIP

"Narrotite" Weatherstrip is the most efficient on the market today. At the HEAD is a formed ribbed strip of the proper width to receive the top sash. The CHECK RAILS are provided with INTERLOCKING strips for utmost protection. The SILL strip has the same pitch as the sill for easy installation and is ribbed to fit the bottom rail. The JAMB Weatherstrip covers the entire jamb from head to sill. The strip is flanged at each end to form a track so that there is no wood to wood contact. The SASH are FACTORY-GROOVED ON ALL SIDES to receive the cut to length Weatherstrip. INSTRUCTIONS, SCREWS and NAILS are INCLUDED.

OVERHEAD SASH BALANCES

Overhead Sash Balances. For Noiseless, Trouble-Free Operation, Completely enclosed, to eliminate the possibility of jamming from Loose Rock Wool Insulation, Plaster, Mortar or dust. Adjustable, with Rust-Proofed Steel Tapes. Balances are placed at left, above Pulley Stile. For sash over 2' 10" wide, four balances are used. Complete installation instructions spring equalizers and tape hooks are included.

"America's Building Materials Headquarters For Over 60 Years"

NEW! UNDERSCREEN OPERATORS WITH ALL "Narrotite" AWNING Window Units (Union Label)

Open and Close Without Removing Screens

AWNING WINDOW FEATURES

- NEW HARDWARE makes it UNNECESSARY TO REMOVE SCREENS OR STORM SASH in order to open or shut windows
- Rain OUT - Air IN Protection
- Storm Sash and Screens INTERCHANGE FROM INSIDE - NO TOOLS Needed
- Completely WEATHERSTRIPPED
- CONTROLLED VENTILATION - Scoops Air Inward and Upward
- Made of Clear W. P. PINE Rot-proofed - water-proofed - termite-proofed
- Positive TIGHT LOCK for Maximum Protection
- Modern HORIZONTAL LINES that blend with any style of Architecture

EXCLUSIVE features of "NARROTITE" Awning Windows

- NARROTITE Awning Windows embody ALL the standard Awning Window features shown above but - IN ADDITION - offer these VITALLY IMPORTANT qualities which NO OTHER WINDOWS POSSESS.
- INDIVIDUALLY OPERATED SASH - permits much better Ventilation Control than when all Sash must operate together.
- EASIEST TO INSTALL - because all parts are completely machined and prefitted. Weatherstrip is Factory - Applied.
- NO EXPENSIVE ADJUSTMENTS - because the simple efficient Hardware operates each sash individually.
- TIGHTEST CLOSING - of all the windows tested. Under HOSE PRESSURE not a drop of moisture penetrated the Narrotite Unit. ALL CORNERS are tight.
- MATCH NARROTITE DOOR AND WINDOW FRAMES in Appearance.
- LOWEST PRICES BY FAR - at last Awning Window Units are available at prices which permit their use in even the lowest cost Home.

"NARROTITE" Awning Window Specifications

COMPLETE UNIT CONSISTS OF: Frame, Sash and Hardware. Trim, Storm Sash and Screens are furnished when ordered.

FRAMES: W.P.PINE - exposed faces CLEAR, ROT-PROOFED - WATER-PROOFED - TERMITE-PROOFED. Drip Cap 1-1/8"x1-5/8", Outside Casing 1-1/8"x1-1/2", Jambes 1-1/8"x5-1/4", Horizontal Mullions 1-3/8"x5-1/4", Sill 1-3/8"x5-1/4", Stool 3/4"x3-1/4". Completely machined, K.D. For Standard FRAME, BRICK VENEER or MASONRY WALLS. Can be cut down on job as much as 1/2" for use with Dry Wall as THIN AS 1/4".

SASH: CLEAN W.P.PINE - ROT-PROOFED, WATER-PROOFED, TERMITE-PROOFED. COMPLETELY PREFIT for easy Assembly. Weatherstrip FACTORY-APPLIED. GLAZED with Clear Glass held by "Kompo-Glaze" instead of Putty, 1-3/8" Thick.

HARDWARE: NEW OPERATORS open windows to desired angle, close and lock WITHOUT REMOVING SCREENS OR STORM SASH. Special type hinges fasten directly to the side jamb and are very inconspicuous.

TRIM: Head Casing, Side Casings and Apron in Clear Red Cedar and W.P.Pine "Curvline" or W.P.Pine "Suburban" Style, (STOOL is FURNISHED AS part of FRAME.) See Trim Pages for Illustrations.

"ECONLINE" WINDOW UNITS

Complete "Econline" Units **\$8.49**
Low As.....

"ECONLINE" FEATURES

- No Weights - No Cords - No Pulleys
- Streamlined for Narrow Modern Trim
- "KOMPO-GLAZE" instead of Putty
- Quality Units at Lowest Prices

"ECONLINE"

FRAME SPECIFICATIONS

Outside Casing 1-1/16x1-5/8; Blind Stop 3/4x1-1/2; Jamb 3/4x4-1/2 (including Rip Strip); Parting Stop 1/2x3/4; Sill 1-1/8x6-3/4 (including Rip Strip) All in Clear W.P.Pine.

The same FINE MATERIALS - the same CAREFUL WORKMANSHIP that go into other Harris Window Units are found in these Econline Units. The AMAZINGLY LOW PRICES are achieved because we have designed these Units to use LESS MATERIAL and because the limited number of sizes permits LONG PRODUCTION RUNS.

These "Econline" Window Units are perfect for Low Cost Housing, Remodeling and Summer Cottages.

IMPORTANT INFORMATION

- Frames have 1/4" Rip Strips applied to Jamb and Sill. These Rip Strips may be quickly removed for use with Dry Wall Construction.
- Rough opening Size should be 2" wider and 2 1/2" higher than Single "Window Opening" Size.
- For Illustrations of Trim see Page 34.

- "ECONLINE" Window Units are available in SINGLES ONLY. However, the Frames are designed to permit butting together on the job to achieve Mullion effects. (Where Outside Casings are thus butted the space between the jambs is exactly right to receive a standard 2x4).
- Trim Sets are available in Singles Only.

"ECONLINE"

UNITS CONSIST OF:

- Choice of Glazed Treated W.P. Pine Windows shown (Factory Prefit)
- W.P.Pine "Econline" Frame - K.D. - (Completely machined)
- Spring Steel TensionType Side Balances.

(UNION LABEL)

W. P. PINE SHUTTERS

FOR PROTECTION.....FOR BEAUTY

Manufactured in our own Factories of clear W.P. Pine. Chemically treated to resist rot and termites. Stiles and top rails are 1-1/8" x 2". Bottom rails are 1-1/8" x 3-3/4" (Bottom rails permit cutting down on the job for tight fit where wanted). The Louvre sections of 10G-5404 are actually solid (for greater protection) but give the appearance of individual slats. 10G-5414 has SOLID RAISED PINE PANELS.

DISCOUNT! On orders for 25 Pairs DEDUCT 10%.
(Sizes and styles CAN BE MIXED to make needed quantity.)

NO.10G-5404 - LOUVRE TYPE

NO.10G-5414 - PANEL TYPE

IMPORTANT NOTES!

Where Shutters are to be Ornamental and Stationary they do not have to be the exact size of the Window. Use the following method in figuring Widths:

- Use 2'4" shutters for Window Sizes up to and including 2'6".
- Use 2'10" shutters for Window Sizes up to and including 3'0".
- Use 3'4" shutters for Window Sizes over 3'0".

Heights should be 1-1/2" higher than Window. Thus a 2' 4"x4'6" Window requires a 2'4"x4'7 1/2" Shutter. Standard Door Shutters are used for 6'8" doors.

UNION LABEL

HARRIS "Presto-Change" SCREEN-SASH UNIT

A SCREEN IN SUMMER . . . A STORM SASH IN WINTER

"PRESTO" . . .
AND THE CHANGE IS MADE

1. Changes from Screen to Storm Sash IN SECONDS - from INSIDE of Room - NO LADDER NEEDED.
2. Easily HANDLED, STORED and WASH-ED from INSIDE OF HOUSE.
3. No Draft Ventilation - saves fuel - protects Woodwork.
4. Unique Design gives EXTRA LIGHT AND VISION - ELIMINATES "GAD-GETS" that get out of order.
5. MADE IN OUR OWN FACTORY of clear W.P.PINE (Toxic Treated).
6. STOCK Units mean lowest prices - (Can be trimmed 1/2" in Width - 1-3/4" in Height). Write for prices on special sizes.

NO EXTRA FRAME
MAXIMUM LIGHT
AND VISION

A "PRESTO-CHANGE" UNIT CONSISTS OF:

1. Glazed One-Light Top Sash - 1-1/8" thick - TOXIC TREATED.
2. Glazed One-Light Bottom Sash - 1-1/8" thick - TOXIC TREATED.
3. Fine Mesh One-Light Screen - 1-1/8" thick - TOXIC TREATED.
4. New Special Complete Hardware Set - including arms and lock for lower sash and screen. This newly designed Hardware does NOT SHOW on the outside and INSTALLS FAR FASTER than formerly. Hardware is packed in Separate Envelope on which is printed Instructions for Installation.

LOW PRICES OF "Presto-Change" UNITS

Harris ALUMINUM Combination STORM SASH-SCREEN UNITS

Year Round Controlled Ventilation at Your Finger Tips

As

Low

As

\$11.48

LOOK AT THESE IMPORTANT FEATURES--

- Completely Self-Storing
- No Ladder Needed to Make Changes
- No Rot! No Rust! No Painting!
- Rugged, Lightweight Construction
- Installs In A Jiffy On Old or New Windows
- Screen Section Stores In Two Positions
- Finger-Tip Changeover From Inside of Room
- Sash Slides On Silvery Tracks-- No Jerking or Pulling, Ever!
- Unit Adjusts and Locks In FOUR Positions For Desired Ventilation--And Safety
- Completely Trouble Free Hardware
- Glass and Screen Inserts Tongue-and-Grooved, Insuring Perfect Weatherbond.

ALUMINUM COMBINATION UNITS CONSIST OF:

1. Precision Built, adjustable Aluminum Frame.
2. One-Light Screen Panel with Fine-Mesh Aluminum Wire--Held Firmly with Vinyl Weatherseal Splines.
3. Glazed One-Light Top Sash and Glazed One-Light Bottom Sash--with Vinyl Weatherseal Splines.
4. All Operating Hardware--Including Two Sash Lifts, Durable Locking Assembly, Screen Handle, and Insert Retainer.

IMPORTANT!

Please do not confuse Harris Units with FLIMSY BLIND STOP type units sold elsewhere. Harris Units are OVERLAP TYPE which require far more Aluminum in their construction and which permit far more size adjustment.

These Units are designed to permit maximum adjustability thus giving you the benefit of LOW COST STANDARD sizes. In WIDTH the Units will fit openings 1 INCH NARROWER to 1 INCH WIDER than the "opening size of wood window" shown above. In HEIGHT they can be adjusted from 1/2 INCH SHORTER to 2 INCHES LONGER than "opening size of wood window".

For Sizes not listed please contact us for prices.

"Fully-Assembled" Units come to you with NOTHING FURTHER TO DO except screw the Unit to your Frame. "Semi-Assembled" Units have the glass and screen Sections FULLY ASSEMBLED, GLAZED AND WIRED. The "Master Frame" comes cut to exact length and mitred. It requires ONLY THE INSERTION OF METAL JOINERS at the four corners to complete assembly. All Units are made-to-order and are not subject to cancellation or return.

PLATE GLASS MIRRORS—GLASS WALL BLOCKS

2-Coat
Back

Superior
Quality

Polished
Plate

¼-Inch
Thick

Complete any decorative scheme . . . bring warmth and beauty to any room. A panel or complete wall of mirrors will give the effect of enlarging the size of a room, and is ideal for use where it is desired to create an illusion of spaciousness beyond the actual room dimensions. Many unusual and attractive effects can be secured by the use of both plain and colored mirrors.

Made of finest polished plate glass, ¼-inch thick, with silver backing. Approximate weight, 4 pounds per square foot.

Prices Quoted are Per Mirror, with Clean Cut Edges and to be Used with Moulding or Frame.

Mirrors fastened to wall with rosettes must have polished or beveled edges.

Daylighted Walls—Clean and Well Insulated

Featured by leading architects—given more publicity in building magazines and trade papers than any building product. Take advantage of our low prices and quick service. Send us your order for Glass Block.

Glass blocks are made of clear colorless glass. The light which streams through them is a full daylight tone. Made with fused seals which insure a dry dead air space within the block, so important to efficient insulation.

Glass blocks are laid up like ordinary brick-work, and are supplied for straight or curved walls. Choice of two popular designs . . . Argus or Decora patterns, in 6, 8 or 12-inch sizes, 3¼ inches thick. Forty 6-inch; twenty-three 7-inch or ten 12-inch blocks required for each ten square feet of panel area. We will furnish, on request, book with complete technical information and details of installation.

SPECIFICATIONS AND PRICES—SOLD ONLY IN FULL CARTONS

| Number | Description | Weight | Blocks in Carton | Size | Per Block |
|---------|-----------------|---------|------------------------|-------------------------|--------------|
| 10F-920 | 6-In. Standard | 4 Lbs. | 12 | 5¼ x 5¼ x 3¼ In. | \$.60 |
| 10F-921 | 6-In. Corner | 3½ Lbs. | 8 | 5¼ x 4¼ Radius x 3¼ In. | 1.06 |

Use in
Carpools

FIVE 30-FOOT LINES

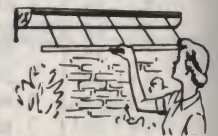

When You Need Them
Out of The Way When You Don't

Five lines (each 30 feet--total of 150 feet) of plastic clothesline in a rust-proof, weatherproof aluminum housing unit, 48 inches wide by 6 inches deep, out of the way, always ready for instant use outdoors or indoors. When not in use, a compact unit shown above.

Plastic-coated clotheslines are anchored at ends to a strong roller spring. Other ends are attached to spreader bar which serves as a handle for taking out the lines. Take the handle and walk to mounting bracket. Simple lever locks lines taut, eliminates need for props. Release of spring-action lever automatically reels line into the housing unit where they are protected.

NO. 4R-209 - Disappearing Clothes Dryer
Regular \$29.95 Value. Special at
Special at \$21.00

HOW TO USE:

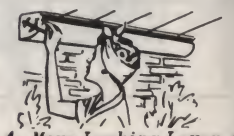

1. Pull Handle and
Lines Roll out.

2. Spring Action Keeps
Clothes Lines Taut.

3. Handle Slides Easily
into Mounting Bracket

4. Move Locking Lever &
5 Lines are Ready.

Let's Talk About Red Cedar . . .

We'd like to introduce you to what we think are THE MOST BEAUTIFUL MOULDINGS WE'VE EVER SEEN. The tawny color lends itself PERFECTLY TO NATURAL FINISH and the MACHINING-ALL DONE IN OUR OWN CHICAGO FACTORY - IS FLAWLESS. The United States government. "Wood Handbook" says of Red Cedar; "The wood is light in weight, EASILY WORKED...has very LITTLE SHRINKAGE ... HOLDS PAINT WELL".

Normally you'd pay a PREMIUM for these Mouldings. Because we have contracted for the entire Moulding Size output of one of the largest Western Mills we can bring them to you at these UNBELIEVABLY LOW PRICES.

IMPORTANT! LOOK AT THE PINE
PRICES IN THE BOXES-----

PRICED PER 100 LINEAL FEET

For Less Than 100 feet use proportionate price.

For Specified Lengths add 10%. (Red Cedar available in Random Lengths Only.) For Paper Wrapping add 10%.

"Birch-Beauty" KITCHEN CABINETS!

VOLUME VALUE!

ON BIRCH BEAUTY CABINET ORDERS TOTALING \$3,000
DEDUCT 5%. ON \$6,000 DEDUCT 10%. (FORMICA TOPS
CAN BE INCLUDED TO MAKE NEEDED VOLUME)

OUTSTANDING QUALITY

At Amazingly Low Prices!

WE PROUDLY PRESENT - "A New Thought in Kitchen Cabinets." Because all the most essential parts of these Cabinets (see specifications) are fabricated of BIRCH it is possible to achieve the thrilling beauty of NATURAL BIRCH FINISH at hitherto unheard of Low Prices! (of course Cabinets can be painted if desired).

There are TREMENDOUS SAVINGS to you in "Birch-Beauty" Cabinets -- savings which go FAR BEYOND the low prices of the Cabinets themselves. Consider, for example, the fact that you buy END PANELS for the EXPOSED END UNITS ONLY of your Cabinet Arrangement. Because all the INTERMEDIATE Units have OPEN ENDS you not only FURTHER REDUCE YOUR COST but at the same time achieve CONTINUOUS SHELVING which permits the storage of LONG OBJECTS which ordinarily will not fit into Kitchen Cabinets. When you use the "OPEN-SHELF UNITS" in your Cabinet Arrangement, you not only add greatly to the Charm of the Kitchen but actually save money - for these clever Units REPLACE THE REGULAR END PANELS.

And now you may order your "Birch Beauty" cabinets in your choice of three styles - Semi-Assembled ("K.D.") - Fully Assembled ("Set Up") - Fully Assembled Lacquered ("Lacquered"). BE SURE YOUR ORDER SPECIFIES WHICH TYPE YOU DESIRE.

SPECIFICATIONS

"Birch-Beauty" CABINETS

SEMI-ASSEMBLED STYLE ("K.D.")

All Frames are FULLY ASSEMBLED and MILLED with connecting holes DRILLED and COUNTER SUNK - ready for quick easy setting up on the job. All other parts are COMPLETELY MILLED for job assembly. All parts are SMOOTHLY SANDED ready for NATURAL FINISH to bring out the BEAUTY of the BIRCH or for paint. Easy-to-follow Assembly Instructions are included.

FULLY-ASSEMBLED STYLE ("Set-Up")

Cabinets are completely assembled ready to finish with Hardware applied as shown on the following pages. IF YOU WISH HARDWARE APPLIED ON THE OPPOSITE SIDE FROM THAT SHOWN YOUR ORDER MUST SO SPECIFY.

ASSEMBLED-LACQUERED ("Lacquered")

Cabinets are fully assembled as described above and finished in high-luster clear lacquer to bring out the natural beauty of the Birch grain.

Doors, Drawer Fronts, Vent Fronts, Louvres, End Panels and Open End Shelves are all manufactured from BIRCH FACED plywood. Drawer Bottoms and Cabinet Backs are of GENUINE PLYWOOD. Remainder of Units is of Kiln Dried Pine.

Doors are HEAVY FLUSH - LIPPED type giving maximum dust protection and are COMPLETELY PREFIT.

Drawers are of Lipped-type DOVE-TAILED Construction. They slide smoothly on Special 3 Point Suspension. Where indicated, METAL LINED BREAD DRAWERS are furnished. These are completely assembled.

All necessary HARDWARE IS INCLUDED. Modern Design CHROME Plated Pulls and Concealed Hinges are featured. Necessary Connector Bolts are furnished.

All Units are carefully packaged, complete with easy-to-follow instructions, for safe clean delivery and space saving storage on the job.

ABOVE UNITS HAVE 2 SHELF SPACES

IMPORTANT NOTES — PLEASE READ!

- 1) Wall Units require "END PANELS" only when one or both ends are EXPOSED. Order No. WP14, WP18 or WP30, depending upon HEIGHT of Unit. "OPEN SHELF UNITS" WS18 and WS30 can be used to replace "END PANELS" on 18" and 30" Units.
- 2) Where Wall Units of TWO DIFFERENT HEIGHTS MEET they require an "ADJOINING END PANEL" to cover the exposed portion of the higher Unit. For example—if a 14" Unit meets a 30" Unit, you should order No. WP16—which is a 16" "ADJOINING END PANEL".
- 3) Wall Units are available in so many widths that it is usually easy to make a "Wall-to-Wall" Layout. However "FILLER UNITS" No. WF14, WF18, or WF30 (depending upon Height of Unit) can be used to make a perfect job.

"Birch-Beauty"

"ROTO-SHELF" CORNER WALL UNIT

Shipped Completely Assembled

The new Roto-Shelf kitchen corner eliminates wasted corner space or the need to reach far into a corner for hidden items. The Roto-Shelf provides an abundance of easy-to-reach storage. The rotating circular shelves place all items at your fingertips and in plain sight at a touch of either door. Shelves may be rotated to the right or left. Two-way catch secures doors in the proper position. Wide opening allows storage of large or small items.

IMPORTANT NOTE: NO "END PANELS" ARE NEEDED since these corner units should always be used in conjunction with regular wall Units.

"ROTO-SHELF" CORNER BASE UNIT

CLOSED

— SHIPPED —
COMPLETELY ASSEMBLED

Corner Space
at Your
Finger Tips

OPEN

No. RBC40

The new Roto-Shelf kitchen corner eliminates wasted corner space or the need to reach far into a corner for hidden items. The Roto-Shelf provides an abundance of easy-to-reach storage. The rotating circular shelves place all items at your fingertips and in plain sight at a touch of either door. Shelves may be rotated to the right or left. Two-way catch secures doors in the proper position. Wide opening allows storage of large or small items.

NO. RBC40 COMPLETELY ASSEMBLED— 40" to Wall on each side—No End Panels needed as this Unit is fully enclosed

Set Up Lacquered
\$84.23 \$88.66

CORNER BASE UNIT

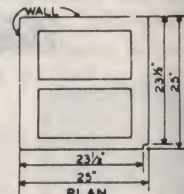

Used only where there is a "Drawer and Door" Base Unit on at least one side. If there are "Drawer" Units on both sides use "Base Filler" Unit No. BCF25.

QRS
LEFT SHOWN
Specify
Right or Left

THE ABOVE PICTURE SHOWS THE PROPER USE OF QRS, HRS and HRS-P. Note that HRS (which has only a 3/4" Thick Birch End) is directly against an adjoining Base Unit whereas HRS-P (Which has a 3/4" Thick Birch End) is used for support of an open counter-top.

SPECIAL SIZES

While it is possible to make a perfect "Wall to Wall" Cabinet Layout by using stock cabinets together with Filler Units we can cut down SOME Base and ALL Wall Units in Width (Not in Height or Depth). To arrive at price of Special Width Cabinets add 20% to the price of the next wider stock unit. These Special Width Cabinets are NOT subject to cancellation or return.

IMPORTANT NOTES

1. Base Units which do NOT have Doors cannot be cut down.
2. CORNER UNITS cannot be cut down.
3. Broom Utility Units, Open-Shelf-End Panel Units, Filler Units, End Panels, etc. CANNOT be cut down.

TOTALING \$3,000 DEDUCT 5%. ON
\$6,000 DEDUCT 10%. (FORMICA TOPS
CAN BE INCLUDED TO MAKE NEEDED
VOLUME).

1. BUILT-UP "FORMICA" TOPS

These Tops are the last word in fine Craftsmanship. The Formica is factory applied under pressure to heavy Five Ply Fir Plywood. Tops are 24" wide and come with attractive smooth-faced Metal Mouldings FACTORY APPLIED. Tops HAVE 4" HIGH BACKSPLASHES. If Sink is to be used, see "Extras".

2. ONE-PIECE "FORMICA" TOPS

These are the latest design in efficient Counter tops. They are smooth and easy to clean because they are FORMED OF ONE CONTINUOUS SHEET of Formica. The Triple Bend ELIMINATES METAL TRIM, creates a NO-DRIP EDGE and MAKES THE 4" BACKSPLASH AN INTEGRAL PART of the Top. If Sink is to be used, see "Extras".

IMPORTANT NOTES - PLEASE READ !!

1. All tops are Custom-Built and not subject to cancellation or return.
2. Where top is to be used with No. BC25 Corner Base Unit, No. BCF25 Base Corner Filler Unit or No. BC2330 Roto-Shelf Corner Base Unit, you must send a sketch of your cabinet layout (Because these units take 25" of wall space thus requiring extra wide tops which the factory furnishes at no extra charge)
3. Sink Cutouts, when ordered, are always located in Center of tops unless otherwise specified. If sinks are to be placed in locations other than the exact center you must send a sketch showing the measurements from the center of the sink to each end of the top.
4. If you wish Top to "overhang" at either end be sure to allow for this when stating length of Top.

- PRICES -

| SIZE | BUILT-UP TOPS | ONE-PIECE TOPS |

BUILD YOUR OWN CABINETS!

"COLOR-GRAIN"

BLONDE WOOD STAIN FINISHES

Newest and best wood finishes for Cabinets, Plywood, Knotty Pine, Furniture, Paneling and Trim. Now you can achieve attractive "Color-Grain" effects-- beautifully blended finishes in six colors. Particularly suited to Plywood, especially Fir as it subdues and beautifies its wild grain--brings an entirely new, more desirable finish for Knotty Pine. Easily applied and requires no wiping or rubbing. For Interior Use, use 2 coats of "Clear Finish" for smooth hand rubbed appearance without rubbing. For Exterior Use cover with exterior varnish instead of "Clear Finish". CHOICE OF 6 COLORS.

FIR PLYWOOD

Harris "Good" Fir Plywood is superior to Lath and Plaster. Saves time in construction. Will not crack, warp, twist or shrink. Furnished in large panels, easily sawn with or across grain. Nails may be set to the edge of panel without splitting. Wood mouldings used with fir wallboard make attractive decorative effects or joints may be left uncovered if applied carefully.

For less than 5 pieces of Fir Plywood (sizes and thicknesses can be mixed to make 5) we must add 10% handling charge.

COLONIAL CORNER CABINETS

These cabinets are perfectly proportioned, and combine superior construction, the result of careful planning, with a regard for the utmost in convenience and adornment for the interior. A very attractive arrangement can be effected by using them in pairs in opposite corners of the dining room. Shelves both above and below the ledge provide ample room for displaying fancy china above, as well as a convenient storage space for dishes below.

On Beautiful WOOD MIR-O-SLIDE CABINETS

- HORIZONTAL SLIDING
Plate Glass Mirrors
- The First TRULY LARGE
Bathroom Cabinets
- Suitable for ANY TYPE of FINISH

No. 10S-716 "MIR-O-SLIDE" CABINET

The amazing popularity which these "Mir-O-Slide" Cabinets have attained since we first introduced them enables us to make these truly sensational price reductions. The savings of mass production are being passed on to you. The quality of the Cabinets remain as high as ever. Now, for the first time, you can have Bathroom Cabinets large enough to solve **ALL** Storage Problems. Manufactured of Clear W.P.Pine—**COMPLETELY ASSEMBLED**—they are truly the last word in fine Cabinet Construction. **DEEPER** than ordinary Bathroom Cabinets—they can be used for **FLUSH** installation in 6 inch or deeper walls, or **PROJECTING** installation in 4 inch walls. Special construction features permit the mirrors to slide with **FINGER-TIP CONTROL**. Because of their fine wood construction these Cabinets can be finished to harmonize with any Decorating Scheme.

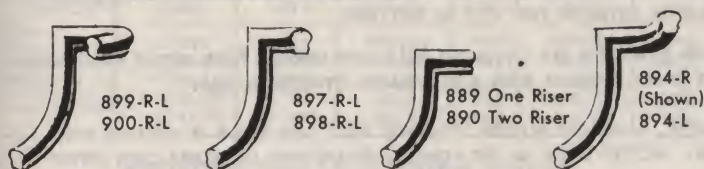

Allow approximately 3/8" in width and height over sizes shown below for rough wall openings.

"America's Building Materials Headquarters For Over 60 Years"

HARRIS KNOTTY PINE PANELING

TRIPLE SANDED

Careful selection for mellow color, fine grain and artistic distribution of knot characteristics, results in a premium product as Modern as Tomorrow. HARRIS SUPERIOR KNOTTY PINE Paneling is offered in the reversible patterns pictured below either TRIPLE SANDED or Unsanded Stock. The Moulding is part of the board which eliminates double nailing, saving time and labor.

HERE'S WHY HARRIS KNOTTY PINE PANELING IS BETTER

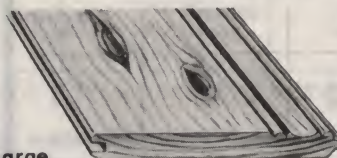

1. Kiln dried lumber means uniform sizes.
2. Extra deep tongue and groove simplifies application.
3. Accurately machined on high speed moulders.
4. Triple sanded on face side provides a furniture-like finish.
(Lower prices for unsanded Paneling, see below)
5. Carefully packed to protect finish during shipment.

HOW-TO-ORDER (a) To convert sq. ft. area to board feet ADD 20%. Weight approx. 170 lbs. per 100'. (b) Be sure to specify on orders, whether "CHELSEA" or "V JOINT" face is to be used. If you order "CHELSEA" the Chelsea side will be sanded. If you order "V JOINT" the V Joint side will be sanded. Allow ONE WEEK FOR SANDING. (c) On specified length orders 7' and longer we will include 10% of the total footage in 6' and shorter lengths which can be used around windows, doors, etc.

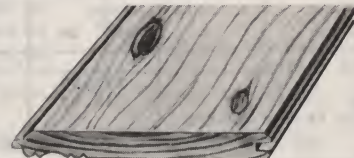

HARRIS TRIPLE SANDED SUPERIOR KNOTTY PINE PANELING

Reversible Patterns

For Less Than 500 feet B.M. We Must Add 5% Handling Charge

MASONITE PRODUCTS - ROOFING - BUILDING PAPERS

MASONITE PRODUCTS

MASONITE is scientifically engineered from wood--a combination of exploded wood fibers pressed into board form which works easily with ordinary tools. It can be painted or varnished, bent to form graceful curves, fastens easily with nails, screws or adhesive. Standard and Panelwood is recommended for interior use, and Tempered for exterior use.

PERFORATED MASONITE

Simplifies difficult storage problems. Use for tool racks kitchen utensils, commercial displays, garage storage, etc. Holes are 3/16" on 1" centers. Available in 1/8" or 1/4" thickness in UNFINISHED, PRIME COAT or COLORED SHEETS. Hanging Hooks and Fixtures available. Write for prices.

FOR LARGER PICTURE WINDOWS WRITE FOR OUR LOW PRICES

All casements are equipped with non-friction, extension type hinges, underscreen rotary operator and locking handle attached to frame. Dimensions shown are exact window sizes outside to outside of frame. Add 1/8" clearance on all sides for opening dimensions. If more than one window is used in the same opening, add 1/4" to the sum total of the window sizes for each mullion to determine the over-all window dimensions. All ventilator sections swing out. Windows having one ventilator may be hinged either right or left as you face from the outside. (Furnished as illustrated unless otherwise specified.) Be sure to specify if fins, screens or mullions are required. (See List Below.) Fins are required for masonry construction. Specify whether fins are for brick or block construction.

ALUMINUM JALOUSIE WINDOWS

for PORCHES - SUN ROOMS - BREEZEWAYS

JALOUSIES COMBINE UNOBSTRUCTED VISION FROM SUN ROOMS, BREEZEWAYS and porches with such easily controlled ventilation and observation that fresh air living can be enjoyed despite wind, weather and close neighbors. Weatherproof--Can't rust or rot. Easily cleaned from the inside, therefore, may be used at upper levels as well as near the ground.

MADE OF SATIN-SMOOTH EXTRUDED ALUMINUM .064 THICK. JAMBS ARE 3" wide with 5/8" integral fin in center all round for firm anchorage. There is a 7/8" integral drip cap at the heads. Close fittings rotary operators against inside of right Jambs. Glass louvers with beveled edges are 3-15/16" high. Clear 7/32" Crystal glass shipped unless 7/32" obscure glass is specified. Interiors screened with 14x18 mesh aluminum wire "rolled-in" removable aluminum frames. Louvers can be secured in any position to guarantee protection and privacy. Wider areas than shown can be filled by combining several Jalousies.

JALOUSIE DOORS

Made to match Jalousie windows in design but are frequently installed alone. Brighten entrances and eliminate the need for screen or combination doors. Glass louvers may be opened for perfectly controlled ventilation without loss of privacy or protection. Removable screen. Jalousie Doors made of finest Fir Lumber with stiles and top rails 5-1/2" wide. Bottom rails 13-3/4" wide in 6'8" doors and 17-1/4" in doors 7' high, 1-3/4" thick. Aluminum Jalousies are firmly set in place. Include aluminum screens and glass furnished clear 7/32" unless obscure 7/32" is specified.

| DOOR SIZE | JALOUSIE SIZE | WIDTH OF LOUVERS | PRICES |
|-----------|-----------------|------------------|---------|

ALUMINUM AWNING WINDOWS

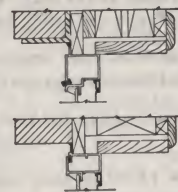

INSIDE VIEW

FRAMES of extruded Aluminum; 2" deep. Ventilators 1-1/4" deep at head and sill and 1" deep at jambs. **VENTILATORS** are tilted and locked by torsion rod mechanism to desired position. **OPERATORS** in center, operated by worm gear. **INSTALLATION** is easy with sill clips furnished with each window. These are applied from each side along sill channel. Head and Jamb fins not required for frame or brick veneer walls where windows are screwed directly to sheathing. **HARDWARE** should not be applied until windows are glazed. **SCREENS** have 1/4" x 5/8" hollow rolled aluminum frames and 14 x 18 mesh aluminum screen wire.

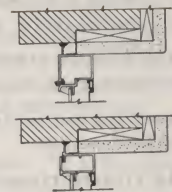

FRAME

Secured with wood screws directly to Sheathing.

BRICK

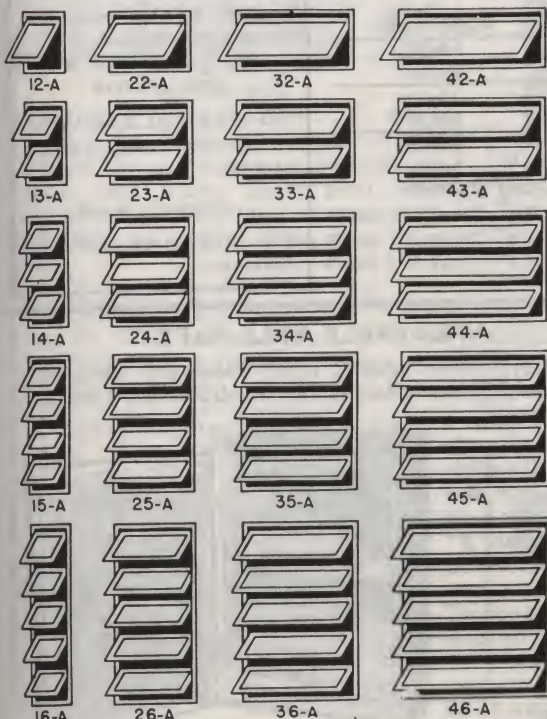

Secured by fins to anchor them in brick-work.

BRICK VENEER

Secured with screws to the sheathing at jamb.

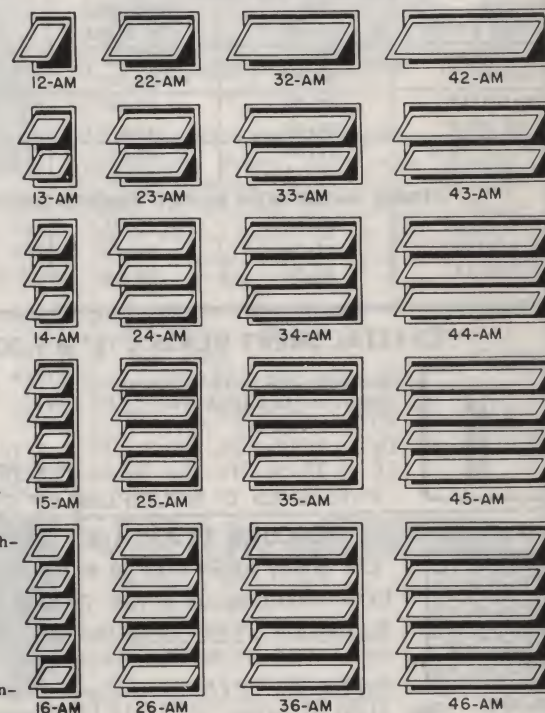

STANDARD SIZES

FEATURES

- **HEAVY, RIGID FRAME**
Made of extruded aluminum.
- **INTEGRAL FIN**
Surrounds windows. Takes brick fin and fin trim.
- **JIFFY QUICK SILL CLIPS**
Slide in channel from each side. Locate as many as wanted.
- **GIVES MAXIMUM VENTILATION**
Vents open to more than 90 degrees.
- **CLOSE WEATHER-TIGHT**
Weather-stripped with Koroseal.
- **EASY TO OPERATE**
Finger-touch control. Torsion bar oilite bearings.
- **NIGHT VENTILATION**
Bottom ventilator opens while upper ventilators remain locked.
- **AUTOMATICALLY-LOCKING VENTILATORS.** No external locking attachment.
- **EASY TO CLEAN**
Top ventilator lowers to permit cleaning from the inside.
- **FLUSH SCREENS**
Rigid frame: Fits flush with window.

"America's Building Materials Headquarters For Over 60 Years"

ALUMINUM HORIZONTAL SLIDING WINDOWS

Manufactured from heavy extruded material. Movable sash glides smoothly on monorail channel formed of extruded plastic, keyed to sash section, insulated with stainless spring steel.

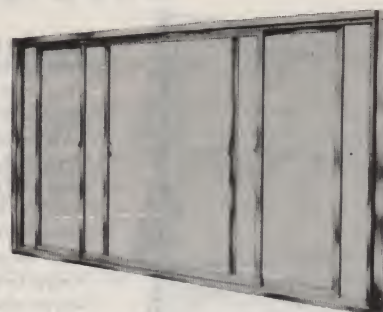

Sliding windows blend with modern home design in single and multi-story buildings. Windows placed high in room permit more flexible arrangement of furniture and more usable wall space.

Integral fin and exterior finish-stop nails directly to sheathing without anchors of any kind. Saves installation time.

Double sliding finger action permits easy operation. Spring head controls sash securely on track. Prevents rattle.

WEATHERTIGHT, built-in precision roll weatherstrip of stainless steel provides tight double contact at head and jambs. Weatherstrip provides triple contact at sill. Vinyl plastic glazing seals both sides of the glass. Sash are quickly and easily removed from inside of the house. Aluminum parts of etched satin, finished with protective lacquer coating. Especially designed hardware and cam lock of stainless steel assures positive sealed sash. Cannot be removed from outside.

Stainless steel aluminum framework glazed with single strength glass, full size screen, aluminum framework, aluminum wire 18 x 14 mesh. Aluminum casing and trim manufactured of heavy extruded aluminum casing is locked to window around the entire perimeter with casing interlocks. A unique snap-on moulding is applied from interior wall preventing troublesome plaster cracks. This casement is adjustable for any combination of inside and outside wall materials.

CUSTOM-MADE WROUGHT IRON PORCH RAILING

ORDERING INSTRUCTIONS

CUSTOM MADE Wrought Iron Porch Railings built special to the exact measurement you furnish. When ordering follow the directions shown. May be fastened to masonry or wood. Finished Prime Coat Black. Lugs provided on top and bottom rails to attach to wall. Require 5 to 6 weeks for shipment. Select Railing Design wanted and add the overall lineal footage. Remit at the price shown. Please make a diagram of your Railing, then fill in all circles to show measurements.

PLATFORM RAILING - No. 4S-190

STEP RAILING - No. 4S-171

State if railings order are to be used on concrete or wood platforms and indicate the preferred method of securing newel posts to platform.

- 1) Posts with extended legs for holes already in concrete.
- 2) Holes to be prepared when railings are received.
- 3) Posts to be furnished with plates for surface mounting.
- 4) Posts to be furnished with base plates for mounting on wood platform.

MEASURING INSTRUCTIONS

for CUSTOM-BUILT Platform Railings

- (A) Measure from wall to edge of platform. This is "overall length".
- (B) If holes are provided, measure from wall to center of hole.

MEASURING INSTRUCTIONS

for CUSTOM-BUILT Step Railings

Give measurements (A) - (B) and (C). If additional length is required at top step to reach post or wall give measurement (D).

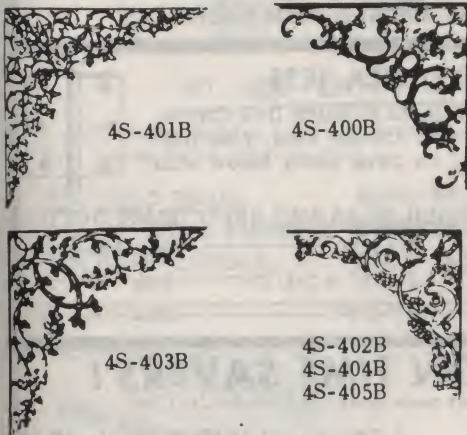

- (E) If holes are provided measure corner at platform (Overall length is (C) plus (D)).

PROTECTION AND NEW BEAUTY FOR DOORWAYS

Millions of homes have doorways unprotected from snow, sleet, rain and sun. Here is the protection home owners need and want - beautifully designed all-aluminum door canopies.

Low in price - sturdily built of aluminum that will never rust or rot - easy to install by anyone - these attractive canopies add greatly to the appearance and value of any home.

Builders of new homes, too, say they are just the thing to save costs and increase the sale and value attraction.

"KENTILE" ASPHALT TILE IS A MULTI-PURPOSE FLOORING which combines in the highest degree rich, colorful beauty together with low initial cost and long-term economy. The tile is practically impervious to ordinary wear. Texture and colors are permanent... require no periodic refinishing.

COLORS ARE LUSTROUS AND FRESH. THE CRISP, CLEAR veining in marbelized colors creates beautiful variegated appearance. Both veining and colors go all the way through to the back of the tile.

"KENTILE" MAKES A COMFORTABLE FLOOR ON WHICH TO stand, walk or work. It is quiet, non-slippery and pleasantly buoyant underfoot. It is especially well suited for installation on cement in contact with the ground.

NO. 5E-4000

WE FURNISH KENTILE ASPHALT TILE SIZE 9"x9" 1/8" THICK in 17 different colors.

HARRIS BROTHERS COMPANY 1349-1451 WEST 35TH STREET, CHICAGO 9, ILLINOIS
"America's Building Materials Headquarters For 60 Years"

AVAILABLE IN A WIDE VARIETY OF COLORS... SOFT CHARMING colors and gay strong colors in beautiful marbelization, every installation of Harris Master Rubber Tile is different... your installation is distinctively yours. The colors go all the way through the tile, hence the individual tone of each is permanent... can't show wear. The fade-resistant colors are yours to admire year after year.

HARRIS MASTER RUBBER TILE IS EASY TO KEEP LOOKING like new. Sweeping or light mopping keeps it spotlessly clean, and an occasional waxing keeps it beautifully lustrous. Absorbing impact, Harris Master Rubber Tile suppresses the sound of noisy, irritating footsteps. Soft and resilient to walk on, Harris Master Rubber Tile cushions every step, is easy on the feet, lessens fatigue.

HARRIS MASTER RUBBER TILE WILL LAST PRACTICALLY FOREVER. It is so exceptionally tough that it withstands heaviest traffic, affords great resistance to denting, scuffing, acids and oil. Fire-resistant, it does not support combustion. Burning cigarettes leave no permanent blemish. Grease resistant, it is ideal for use in kitchens.

NO. 5E-6000 HARRIS MASTER RUBBER TILE comes in the popular Size 9"x9", 1/8" Thick and in 14 most popular mottled colors.

No. 4N-1061—"OLD DUTCH" Superhide House Paint. We consider "Superhide" the best paint made regardless of price. It is a lead, zinc and titanium paint. Has extremely good hiding qualities. Brushes and levels out well. The vehicle is linseed oil, volatile and drier. This is a superior paint for one coat work. Choice of 10 colors: Ivory, Cream, Buff, Willow Green, Bungalow Brown, Silver Grey, Medium Grey, Lead, Rich Red, Blind Green. Covers 400 to 600 square feet per gallon. **FREE Color Card on Request.**

1-Gallon cans \$ 5.75
5-Gallon cans 28.50

WHITE HOUSE PAINT

No. 4N-1049. A good grade of exterior paint formulated with the proper proportions of lead, zinc and titanium pigment combined with long lasting pure linseed oils, blended scientifically with cooked process oils. Excellent protective coating for Homes, Garages, Barns, Out-buildings, etc. Will remain white by self-cleaning action of Titanium Pigments. Can be tinted with color-in-oil.

Per Gallon \$ 3.55
5 Gallons 17.50

SEMI-GLOSS (Eggshell) ENAMEL

No. 4N-1081. Recommended where a low sheen enamel is desired. This material works well under the brush. Levels well and has excellent hiding qualities. Dries with a tough flexible film and is easily washed. For contract work this enamel is guaranteed to exceed the requirements of U. S. Government specifications TT-E-508. Furnished white only. Covers 400 to 600 square feet per gallon.

Quart \$1.30
Gallon 4.25

HOUSE PAINT PRIMER

No. 10N-1052—"OLD DUTCH" House Paint Primer. A good hiding white primer of excellent sealing properties. It is manufactured with processed linseed oil. It may be used as a first coat under any good ready-mixed house paint or linseed oil and lead. Its "Hold Out" properties are so effective that fine looking long wearing two coat jobs are

easily produced. Furnished in white only. May be tinted with oil colors. Covers 400 to 600 square feet per gallon.

1-Gallon cans \$ 5.40
5-Gallon cans 26.50

INTERIOR PRIMER & SEALER

No. 4N-1072—"OLD DUTCH" Interior Primer and Sealer. This material recommended for sealing and interior surface of plaster, wallboard, wood, etc. It is pigmented providing excellent sealing properties. Brushes easily and does not sag. It is a very effective sealer even on very porous surfaces and may be used under all types of paint. This interior sealer is in white only. May be tinted with Old Dutch flat wall

liquid. Covers 500 to 600 square feet per gallon.

1-Gallon can \$ 4.75
5-Gallon can 23.50

WHITE ENAMEL

No. 4N-1092. Serviceable porcelain-like high gloss finish for interior use in kitchens, bathroom, woodwork and furniture. Will withstand repeated washings without injury to the film. Brushes easily and is self-leveling and offers good one-coat hiding. Tints easily with colors-in-oil.

Flat Wall, Varnish & Enamels

Magic Velvet Flat Paint

For Use on Plaster, Canvas
Wallpaper and Wood

BRUSH, SPRAY, or ROLL ON

No. 4N-1109. This superior quality flat wall paint is furnished in white and tints as shown. This paint may be brushed, rolled or sprayed. Levels out like enamel. Dries with a mat flat finish. Will stand many washings without injury to the film. Dries uniformly even over surfaces of varying porosity. May be applied over wallpaper. The pigment and liquid do not separate. There is no water in this material and no danger of freezing. Easily applied. Spreads like butter. Excellent color retention. Dries to a most beautiful decorative finish. Covers 500 to 600 square feet per gallon. Furnished in the following colors: Peach Blow, Duchess Ivory, Turquoise Blue, Cameo Cream, Victorian Gray, Reseda Green, Apple Blossom, Lime Yellow, Pecan Gray and Wedgwood. Write for **FREE** color card of mixed tints.

4N-1109

Per Quart

\$1.10

Per Gallon

\$3.75

DEEP TONES

No. 4N-1129—"OLD DUTCH" Deep Tones. Colors in flat wall liquid. May be intermixed to produce desired shades. They may be used in any proportion with flat whites

without increasing gloss or inducing flashing. This flat paint may be mixed with the required colors in a minimum of time because neither Old Dutch Deep Tones or Magic Velvet flat settle in the containers. Old Dutch Deep Tones supplied in the colors below. **Free Color Card Deep Tones on Request.**

COLOR GROUPS

Group A—Raw Sienna, Burnt Sienna, Raw Umber, Burnt Umber. Quart Cans **\$1.10**

Group B—Chrome Yellow, Light, Medium and Orange, Chrome Green, Light Prussian Blue, Cobalt Blue, Ultra-Marine Blue. Quart Cans **\$1.15**
Per Gallon **\$3.95**

CEMENT FLOOR PAINT

No. 4N-134—"OLD DUTCH" Cement Paint. The best cement floor paint manufactured. Makes cement floors beautiful and easy to keep clean. This hard drying synthetic resin enamel is resistant to alkali and bonds tightly to cement surfaces. Its tough glossy finish resists the action of soap, water, oil or grease. Furnished in the following colors: Pearl Gray, Slate or Terra Cotta.

Price per gallon **\$4.75**

LIQUID PLASTIC VARNISH

No. 4N-1149—"OLD DUTCH" Liquid Plastic. This is a very unusual varnish. It is a plastic in solution. It dries through evaporation and when the volatile is gone, a sheet of plastic covers the area. This material is practically colorless and may be used over white backgrounds. It is an excellent coating for copper or aluminum surfaces. It has good abrasive resistance and will not discolor. Makes a beautiful floor varnish. It may be applied over wood or linoleum. Recommended for use where natural finish outside doors are required.

Price per gallon **\$6.75**

UTILITY PAINT

No. 4N-1174—Utility Paint. Recommended for barns, sheds and farm buildings of all descriptions. An excellent protective paint for gutters and metal roofs. Extremely durable product for all wood, brick and metal surfaces. This utility paint is reasonable in initial cost and the long years of service make it the most economical paint to use. Colors: Barn Red or Slate Gray.

Per Gallon **\$ 2.95**
Per 5-Gallon can **14.50**

PORCH & FLOOR PAINT

No. 4N-1154—"OLD DUTCH" Porch and Floor Paint. This porch and floor enamel is made with a hard drying synthetic resin enamel and is recommended for use on exposed floors, boats, wood and metal surfaces inside and out. Dries in a tough enamel finish that withstands the action of sun, rain, snow or scuffing feet. Furnished in the following colors: Gray, Lead, Green, Yellow, Tan or Red.

Price per gallon **\$4.50**

DRESDEN 4-HOUR ENAMEL

No. 45-1255—For interior and exterior use. This quick-drying enamel is excellent for kitchen, bathroom and breakfast nook walls—for all jobs of wood and metal furniture where a high gloss enamel finish is desired. Dresden enamel brushes easily and flows smoothly. Whether used in white or colors, the hiding properties are so intense that one coat is all that is necessary.

Modern Colors

The light tints are pleasing and clear in tone. The bright colors are very attractive. Furnished in the following colors: Ivory, Lettuce Green, Pea Green, Maple Yellow, Light Blue, Holland Blue, Chinese Red, Rose Pink, Silver Gray and Dove Gray. **Free Color Card on Request.**

WOOD FOLDING STAIRWAY

- **Fold Up Into The Ceiling** -- leaving only decorative panel showing.
- **Sturdy, Safe, and Economical.** Give attic availability at a huge saving over the conventional stairway.
- **Require Very Little Space** -- Can be installed in a small hall, or large closet, or right in your own room. Leave entire attic floor useable, except ceiling opening. Stairways are entirely out of the way when not in use.

CONSTRUCTION FEATURES

Stairways are Spring Balanced for easy operation. The three sections are made of clear pine. Connected by strong hinges they become a single stairway when open.

Hardwood plywood ceiling panel left clear for application of any color finish. (Ceiling panel trim not furnished.) Steps are groove fitted and held with coated nails. Strong steel hardware and fittings are included.

PLEASE NOTE: The new "SPECIAL" Stairway, altho the same overall size as the "MODEL", is of LIGHTER CONSTRUCTION, has LIGHTER HARDWARE and is FIR instead of PONDEROSA PINE. The "SPECIAL" is intended for LARGE PROJECTS. For INDIVIDUAL HOUSES we recommend the "MODEL".
